

Capability Statement

Stonos Solutions is a leading security and technology consulting firm specializing in physical and cyber security solutions. We offer expert advice and tailored strategies to help organizations of all sizes enhance their security posture and protect their assets.

Core Competencies

- **Security and Technology Consulting:** We provide comprehensive security assessments, vulnerability analyses, and risk management strategies to identify and mitigate security threats.
- **Physical Security Design:** We design and implement physical security systems, including access control, video surveillance, intrusion detection, and perimeter security.
- **Cybersecurity:** We offer a full range of cybersecurity services, such as network security, data protection, incident response, and security awareness training.
- **Program and Project Management:** Our staff has extensive experience in managing complex, long-term implementations to include contract administration, vendor management, trade coordination and stakeholder communication.
- **System Optimization:** We provide on-going optimization and advanced configuration for our client's systems to include custom integration and automation.
- **Training Programs:** We deliver specialized training programs to empower clients in effectively managing and optimizing their security measures.

Experience and Expertise

With decades of combined industry experience, Stonos Solutions has a proven track record of delivering successful security solutions to a diverse clientele, including:

- A/E and Construction
- Consulting Firms
- Public Entities
- Enterprise Commercial
- Manufacturing / Industrial
- System Integrators
- End-users / System Operators / System Admin
